And the description of a mining proposition of which I had no faith in at the time, to myself and as he said, I consider his work of high order and recommend him to any one, who seeks advice on mines, business or affairs of life. UNDUE PUNISHMENT PROSECUTED-TOTMAN

Local Justice of the Peace Says That Unnecessary Punishment of School Children Will Be Banned From Bisbee.

That prosecution will follow any undue punishment to school children in Bisbee precinct was the gist of a statement made by Judge George W. Totman, yesterday. The statement was made during the trial of a case in which J. B. Potter, principal of the Central School, was the defendant on an assault and battery charge.

It would appear that the school master, yesterday morning, whipped four boys with a strap. One of the boys' mother came into court and swore out a complaint, charging Potter with assault and battery. The youngsters were in court and one exhibited his back which had ample signs of a whipping.

The court, in commenting on the case, declared that there were other means, than that which was taken, for restraining obstreperous children. He declared the laws did not allow a teacher to punish a child to that extent and warned the teacher that a repetition of the occurrence, from any source, would mean an active prosecution.

Duofold Underwear

Duofold is different from any other underwear. It is two fabrics knitted together. Fine cotton, next to the skin, is comfortable, prevents excessive perspiration, absorbs it. Air-space ventilates and dries. The fine light wool outside keeps out the cold.

Duofold keeps the body at a natural temperature at all times, and the skin is always comfortable.

Duofold does not shrink.

We shall be glad to show you Duofold and tell you more about it if you will stop in. Do it soon.

Don't Forget!

Coffee contains the drug, caffeine—about 2 1-2 grains to the cup.

Some people use coffee for years and either forget or don't know that caffeine is a cumulative poison, working away in the system, insidiously undermining and destroying health.

Some of the signs are headache, heart flutter, sleeplessness, biliousness, and various stomach, kidney and liver troubles.

Of course, if one prefers his coffee, and is willing to put up with these "comforters," why—keep right on!

But if one values health and real comfort, and at the same time would enjoy a delicious, wholesome beverage, the thing to do is to quit coffee and use
